

UNLOCKING MICROSOFT 365 FOR INTRANETS AND EMPLOYEE COMMUNICATIONS

Like peanut butter and jelly, or macaroni and cheese, our consulting services combine our long-standing experience with intranets and employee communications and our deep knowledge of Microsoft 365 to produce simply “delicious” results.

As a Microsoft partner with substantial enterprise-level experience, we are uniquely qualified to improve and innovate your intranet, digital workplace and employee communications without reinventing the wheel – boosting employee engagement, saving you time and reducing risk.

The result? A proven, real-world approach that delivers tangible results for today’s hybrid, mobile-first work force.

We ask the right questions, create a strategy, align your teams around it, create a pragmatic and actionable roadmap, and then execute across all aspects of the plan (technical, content, design, operation).

Our consulting expertise will:

IMPROVE EMPLOYEE COMMUNICATION

Our approach transforms your intranet and communications from a “destination” to content flowing seamlessly within employee’s everyday work.

INCREASE ENGAGEMENT

Employees are engaged with targeted, personalized, and contextualized content that blends with their workflow - with communications and intranet experiences that really matter.

SAVE TIME

Our proven methodology combines best practices and the Microsoft 365 that work best for your employees and your communication and IT teams.

Proven, Pragmatic Approach That Unlocks Microsoft 365

AGILE

METHODOLOGY

We use an Agile methodology that provides you with solutions that can be reviewed and modified in real-time.

You'll experience much faster innovation, more effective decision making, more efficient stakeholder engagement, a clearer vision, and a faster deployment. All that saves time and delivers far superior results.

WHY VELAKU

Simply put: Our exclusive focus and long-standing experience with intranet and digital workplaces, coupled with our expertise in employee communications and deep Microsoft experience enable us to deliver significant value and innovation across the full lifecycle of your engagement.

It's what we do and who we are.
